

## **JOB DESCRIPTION**

# **Junior Occupational Therapist**

Children's Therapy London are offering a rare opportunity for a talented and exceptional newly qualified/ junior Occupational Therapist to join our established and experienced team. This is an exciting role where the therapist will hold a clinical caseload, whilst being supported with significant training to develop their clinical skills within the field of paediatrics.

Children's Therapy is a growing independent specialist therapy centre offering Occupational Therapy and Speech and Language Therapy services. A family centred practice based on a passion for working with and supporting children struggling in aspects of their development, to achieve success and release their potential. As a growing company, the role will offer progression to a Senior Occupational Therapist role and long term opportunities to progress into specialist clinical or managerial roles.

We are a business that genuinely puts the needs of our clients and staff at the heart of everything we do. We recognise that passion and personality matter and an outstanding team is the foundation of our success. We are a small, friendly team and the ideal candidate will need to be adaptable and flexible with a hands on approach.

This is an exciting role that offers a varied, rewarding clinical caseload. You will be given support and training from Senior Occupational Therapists in order to develop your clinical and professional skills. The role offers the opportunity to further your skills within the private sector within a dynamic and growing practice.

### **Applications and enquiries:**

Applicants should submit a CV and covering letter to [melissa@childrenstherapylondon.com](mailto:melissa@childrenstherapylondon.com), or if you would like to discuss the role in more detail please call us on 0203 6919626 and speak to Melissa.

The ideal candidate will have:

- Experience working with children in an Occupational Therapy setting. This could be either as part of a pediatric placement or post graduate experience.
- Sound knowledge of child development and experience working with children outside the scope of Occupational Therapy is desirable, if applicant does not have post graduate pediatric Occupational Therapy experience.
- Confidence in their clinical reasoning abilities and strong effective communication skills.
- Be able to use their initiative and to exercise independent judgment, decision-making and problem solving expertise.
- Strong organization and prioritization skills
- Effective team working skills
- Experience participating in clinical supervision and able to evidence self directed learning and reflection.
- Passion for and commitment to our company vision and core values.
- You must have current HCPC registration and an enhanced DBS disclosure will be required on appointment.

Offering regular clinical supervision, Children's Therapy London will support and encourage professional development through on-going CPD and further training. We will also offer opportunities to be involved in the ongoing development of our Occupational Therapy services under the guidance of our Senior Occupational Therapists. Working collaboratively as part of the team to grow our business in a way that makes us proud.

By joining Children's Therapy London, you will be part of a team dedicated to providing superb standards of assessment and therapy support services to children and their families.

This is a challenging and rewarding clinical position and the successful candidate will be a capable and exceptional individual who will play a key role in our team.

Benefits we offer:

- A competitive salary, including regular performance and salary reviews.
- 25 days holiday per annum (with the option of buying extra leave or selling leave).
- A strong investment in training and development.
- Annual profit share bonus.
- A defined contribution pension scheme with employer matched contributions.
- Private health insurance.\*
- A commitment to supporting wellness and life balance through support and benefit initiatives, including flexible working options, an additional day off for your birthday, subsidised gym membership, yoga at work, active team days, a free FitBit, and team development initiatives.

**Applications and enquiries:**

Applicants should submit a CV and covering letter to [melissa@childrenstherapylondon.com](mailto:melissa@childrenstherapylondon.com), or if you would like to discuss the role in more detail please call us on 0203 6919626 and speak to Melissa.

Passion and personality matter to us as. If you're passionate about making a difference to a child's life, want to be part of a growing collaborative and supportive team where your voice will be heard and want to play a significant role in growing a business that makes us proud then you're a perfect fit for The Children's Therapy team. We want to hear from you!

**Hours:** Full time.

**Start Date:** December 2016

**Salary:** Dependent on experience, £23 000 to £28 000 p/a. Relocation incentive available.

## **JOB SUMMARY**

The Junior Occupational Therapist is a recently qualified clinician, able to provide Occupational Therapy assessment and intervention under the guidance and supervision of a senior member of the Occupational Therapy team. Clinically they will provide a high quality standard of Occupational Therapy treatment and advice for a caseload of children with a wide range of developmental difficulties and / or disabilities.

The Junior Occupational Therapist will also assist the Occupational Therapy team and Administration team when required in the operational aspects in the practice related to Occupational Therapy services to achieve excellent customer service, quality, cost and deliver performance in line with company strategy, goals and values.

## **RESPONSIBILITIES**

### **Clinical**

- Is professionally and legally responsible and accountable for all aspects of Occupational Therapy treatment and care delivered to clients to ensure a high standard of clinical care.
- Demonstrates theoretical and practical knowledge in the key concepts of the biological, physical, social, psychological and clinical sciences relevant to the specialist area of paediatrics.
- Competent, with supervision, at using treatment approaches with children with a range of conditions in order to maximize rehabilitation potential.
- Recognizes the limits of their own practice and knows when to seek advice.
- Takes appropriate action to deal with any emergencies identified including identifying and responding to risk or abuse situations, in accordance with procedures.
- Utilises clinical reasoning skills in order to establish an accurate assessment and prognosis in order to formulate individual and agreed care / treatment / management plans for a range of paediatric conditions.
- Analyses and interprets complex clinical and social information from a range of sources e.g. medical reports, social services and educational reports, and integrates it appropriately into occupational therapy assessments and development of care / treatment / management plans.

### **Applications and enquiries:**

Applicants should submit a CV and covering letter to [melissa@childrenstherapylondon.com](mailto:melissa@childrenstherapylondon.com), or if you would like to discuss the role in more detail please call us on 0203 6919626 and speak to Melissa.

- Works with children and their families to identify and agree treatment goals based on assessment outcomes.
- Evaluates client intervention and progress using appropriate outcome measures and evaluation tools. Adapts occupational therapy programmes as needed.
- Understands own boundaries and actively demonstrates a knowledge of when to escalate to senior staff.
- Demonstrates good therapeutic handling skills for accurate assessment, treatment and moving and handling of clients.
- Teaches and demonstrates specific occupational therapy techniques to parents / carers and education staff to enable them to develop the skills needed to carry out the individual occupational therapy programme for the child. Educates parents / carers on the child's medical condition, prognosis and management.
- Is a source of advice on occupational therapy client care for members of the multi-disciplinary team and professionals working in social services, education and voluntary sectors.
- Assess children for specialist equipment and recommends its purchase from health, education and social services. Sets up and adjusts specialist equipment specifically for individual children. Trains parents / carers and other agencies in the use of the equipment.
- Continually updates clinical practice in accordance with current research, evidence based guidelines, audit results and government legislation.
- Is responsible for maintaining accurate and up to date individual client records. This includes recording of assessment, outcome, on-going treatment evaluation, goal setting and report writing.
- Uses appropriate communication skills with families and children of all ages who have a range of disabilities and associated barriers to understanding such as learning difficulties, hearing and visual impairments and clients where English is not the first language.
- Communicates highly complex, sensitive and sometimes unwelcome information to children, parents / carers and other professionals regarding a child's treatment and prognosis with tact and empathy.
- Offers specialist advice and communicates detailed written reports, occupational therapy programmes and verbal information to parents/carers and agencies including other health professionals, social services, education, voluntary organisations and solicitors regarding a child's occupational therapy management and individual needs.
- Maintains a professional portfolio of Continuous Professional Development (CPD), recording learning outcomes and reflections through clinical practice and internal and external development opportunities.
- Actively participates in the company supervision and appraisal system.
- Undertakes training and development relevant to post keeping record of learning outcomes.
- Demonstrates evidence of core competencies for the role.
- Ensure confidentiality at all times, only releasing confidential information obtained during the course of employment to those acting in an official capacity in accordance with the provisions of the Data Protection Act and its amendments.

**Applications and enquiries:**

Applicants should submit a CV and covering letter to [melissa@childrenstherapylondon.com](mailto:melissa@childrenstherapylondon.com), or if you would like to discuss the role in more detail please call us on 0203 6919626 and speak to Melissa.

## **Managerial**

- Plans, organises and prioritises own clinical and non-clinical workload with support, as necessary, from supervisor.
- Reprioritises work to accommodate the changing priorities and responsibilities in the business.
- Assists with implementing goals, objectives, policies, procedures, and systems for the clinic.
- Assists in the implementation of policies and procedures to meet government national regulations specific to employment law, healthy and safety, data protection, client confidentiality and guidelines provided by professional regulating bodies governing the activities of qualified therapists.
- Demonstrates emerging leadership skills of:
  - Critical Thinking
  - Conflict Management
  - Negotiation and Motivation
  - Fosters teamwork within the clinic
- Demonstrates own clinical and non-clinical activities to new or less experienced staff.

## **Customer Service**

- Acts professionally at all times.
- Assists with the day to day organisation of the practice when required and ensures a high level of customer service is delivered at all times.
- Identifies and understands the needs of the customers of the clinic. Formulates working relationships which adhere to the clinic standards.
- Greets all visitors to the clinic in a warm, friendly and comforting manner.
- Communicates customer needs and requests to the therapy team when required.
- Manages telephone answering when required.
- When required assists with general administrative duties including managing clinic schedules and organising appointments, proof reading reports, and occasionally invoicing and credit control.
- Assists with the implementation of health and safety and risk assessment policies and clinic procedures.

## **Business Focus**

- Has the opportunity to assist with new business development within the Occupational Therapy section of the business – including identifying opportunities and developing products and packages.
- Helps identify new opportunities to build existing client relationships, including building relationships and generating repeat work with professional clients (schools, nurseries, charities, local authorities, solicitors and case managers).
- Assists with research and data gathering for business development initiatives within the Occupational Therapy section of the business when required.
- Assists with the development of activities associated with building a successful therapy practice.
